LEED[®]Zero

ZEROCarbon

ZEROEnergy

ZEROWater

ZEROWaste

LEED BD+C or O+M Certified
Registered for O+M

12 Months of Performance Data

Status:

LEED Zero Carbon
Building Energy Use, Occupant Transportation.
Future: Water, Waste, Embodied Carbon

LEED Zero Energy
ARC with Adjustments for Car Charging and
Net-Metering

LEED Zero Water
Potable Water Balance

LEED Zero Waste
TRUE Platinum Certification

LEED Zero
Program Guide

November 2018

Last updated: May 2019

LEED V4.1

ENERGY & ATMOSPHERE

Minimum/optimize energy performance Prerequisite and Credit

Updated referenced standard to
ASHRAE 90.1-2016

Renewable energy Credit

Recognizes more types of renewables
and procurement strategies

Grid Harmonization Credit

Improved implementation for Demand
Response Options 1 and 2.
