benefits of sponsorship:

Why Sponsor?

This isn't a moment, it's a movement!

Our sponsors are partners in this event. Getting to Zero sponsorship packages help you maximize brand interaction and reflect these broad goals:

Year-Round Engagement

Contribute to and get featured in Getting To Zero Resource Hub, blogs, media outreach, webinars before and after the Forum

Facilitate Learning

Provide development opportunities for employees, customers, and stakeholders

Gain Recognition

Build awareness of your green building efforts and achievements

Build Relationships + Drive Investments

Collaborate to build new business opportunities and demonstrate your leadership in the clean energy economy and the future of the built environment

Spotlight Innovation

Showcase company visionaries and leading-edge practices

Actionable Solutions

Discover tools, technical expertise, and practical applications to advance your company in this new and growing market

About the Forum

“As always, this event reframes the conversation about ‘what’s next.’ Super valuable.”

—attendee of 2021 Getting to Zero Forum

GETTING TO
zero

With 500+ anticipated attendees, the 2023 Getting to Zero Forum is both a year-round learning opportunity and a solutions-focused event that provides exclusive opportunities for companies and organizations to:

- share products and services,
- gain industry visibility, and
- establish and nurture long-term working relationships.

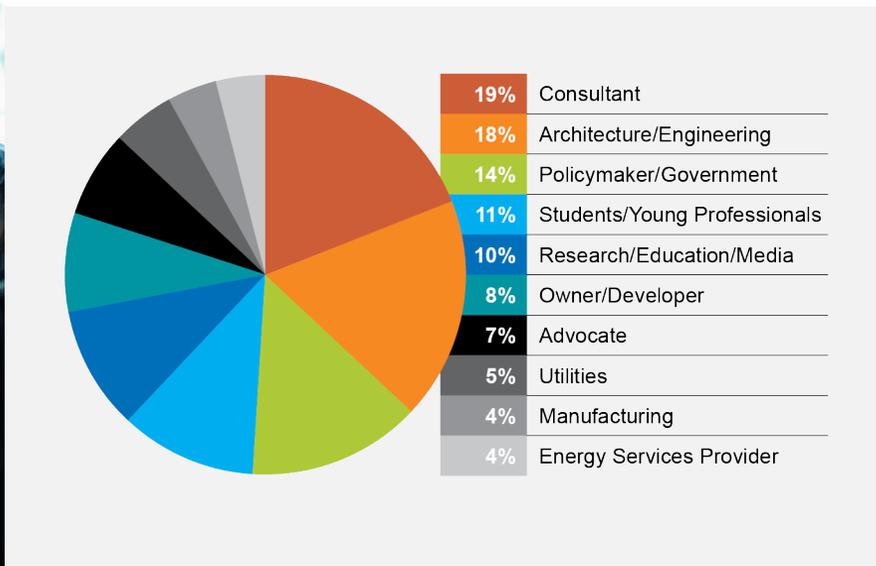

About the event co-hosts

The Forum is co-hosted by New Buildings Institute and RMI. **New Buildings Institute (NBI)** is a nonprofit organization pushing for better buildings that achieve zero energy, zero carbon, and beyond through research, policy, guidance, and market transformation.

RMI is an independent nonprofit that transforms global energy systems through market-driven solutions to align with a 1.5°C future and secure a clean, prosperous, zero-carbon future for all.

Who Attends?

State and local policymakers, designers, program managers, building owners, operators, commercial real estate professionals, manufacturers and others gather at the Forum to collaborate on opportunities for zero energy / zero carbon policies and programs that will drive scale of future ZE/ZC projects. See below for the 2021 make up of attendees. **Nearly half** occupy senior-level positions in their companies and organizations. See a select list of past attendees [here](#).

Wireless Sponsor

- Highlighted in event program and on signage as sponsor of on-site wireless internet

About Getting to Zero 365

“Really fascinating. Appreciated the breadth of presentations + topics covered in a short period of time. Thank you!”

—attendee of 2021 Getting to Zero 365 programming

The Getting to Zero Forum is a three-day event, but the movement to drive the highest levels of efficiency in buildings happens all year. Sponsor support of the Getting to Zero platform allows ongoing education platforms and resources to be delivered 365 days a year to customers, clients and stakeholders.

Workforce Education

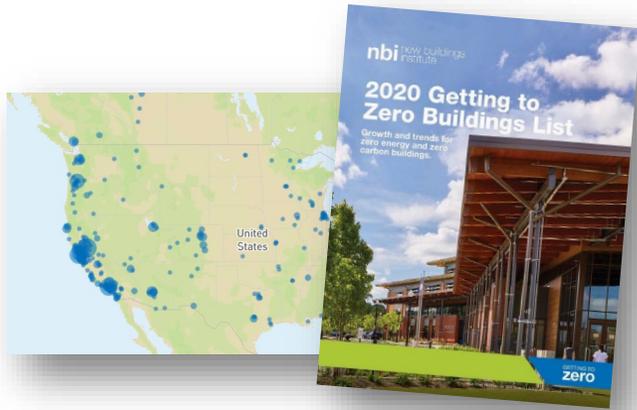

Getting to Zero webinars and online educational modules, featuring the highest-rated sessions from the Getting to Zero Forum. All modules have AIA continuing education credits available. Value of modules is up to \$495 per person accessing training.

All-Access Resource Hub

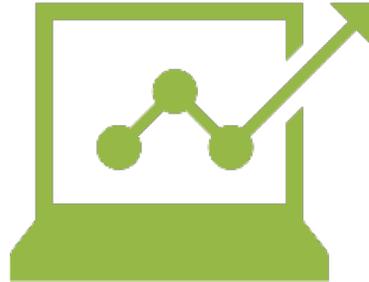

The Getting to Zero Resource Hub is an open-source collection of 300+ zero energy and zero carbon resources spanning seven topic areas including design & development, electrification, embodied carbon, local governments toolkit, codes & policy, residential, and schools.

Getting to Zero 365

Getting to Zero Buildings Database

NBI maintains the most comprehensive list of zero energy (ZE) commercial and multifamily buildings across North America. With nearly 800 low-energy, low-carbon projects, building industry professionals can see examples for most building types in all climate zones.

Media Education & Awareness

Media mentions of net zero are substantially increasing. To support media coverage and recognition for leaders in this market, we support coverage by pitching stories and connecting press with experts and training those experts on messaging.

Collaboration & Networks

Over 4,000 leading professionals, 20 local grassroots organizations and others committed to net zero goals in the built environment are collaborating and utilizing our tools to educate peers, clients and stakeholders about the feasibility and opportunities of getting to zero.

We have potential to transform the way we design and construct commercial buildings within the next two decades to achieve zero energy and zero carbon goals.

Won't you join us in defining the future of the built environment?
